This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3) and 43 CFR 10.11(d). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. Consultation

A detailed assessment of the human remains was made by the Wisconsin Historical Society professional staff in consultation with representatives of the Forest County Potawatomi Community, Wisconsin; Ho-Chunk Nation of Wisconsin; Lac du Flambeau Band of Lake Superior Chippewa Indians of the Lac du Flambeau Reservation of Wisconsin; Menominee Indian Tribe of Wisconsin; and Upper Sioux Community, Minnesota.

History and description of the remains

In 1990, human remains representing, at minimum, one individual were removed from the Sax of Fax site (47-FD-0261) in Sawyer County, WI. The human remains were brought to the Wisconsin Historical Society's Burial Sites Preservation Office (BSPO) by Lynn Rusch in 1990. The human remains had reportedly been unearthed in a plowed field by a tenant farmer on the farm of Robert Abraham. Diane Holliday of the BSPO, along with an officer of the Fond du Lac County Sheriff's Department, visited the site and discovered additional human skeletal fragments.

Skeletal analysis conducted in 2005 determined that the human remains represent an elderly adult, probably female. No known individuals were identified. No associated funerary objects are present.
